

mobile PhoneTools - Bluetooth

Overview

Even out of the office, keep on communicating! Connect your laptop to your mobile phone... and mobile PhoneTools makes it happen: set up your Internet connection in a few clicks, send/receive faxes and SMS, synchronise your PC and mobile's phonebooks... and even more. With mobile PhoneTools, you will know what the "freedom to communicate" really means to us.

The solution consists of a V1.2 Bluetooth USB adapter which is Microsoft approved, and mobile PhoneTools v3.1. This solution has been approved by TMTI and can now offer telephone support to help the end user have a stress free installation.

Features

SMS – EMS – MMS - Manage SMS, EMS and MMS directly from your laptop or PC

Fax - Benefit from having comprehensive fax features always to hand on your laptop.

E-mail - Manage your personal and professional e-mails using the same intuitive interface.

Send & receive documents by Fax, SMS & e-mail - Several features, common to these 3 communication tools, enable you to communicate anytime, anywhere

Dialer - Make calls directly from your laptop.

GPRS - Simplify your GPRS configuration and management with the powerful, integrated wizard.

Phonebook and Synchronisation - Keep all your contacts in just one phonebook and synchronise your laptop and mobile phone contacts bases.

Ringtones - Personalise your mobile phone ringtones and save them on your laptop.

Multimedia – Edit, create and save Video, Polyphonic tones, MP3 audio, Mono tones, Pictures, and Wallpaper

Mobile information - Enjoy easy access to important mobile phone details.
